

Golfers/Parents,

Here are some of the parameters for participation on the 2018 Boys Golf Team. (These are not all encompassing.)

All golfers who are trying out for the 2018 Season must be eligible. **Eligibility requirements:** Parents/Athletes must go to [registermyathlete.com](http://registermyathlete.com) and complete the athlete registration process which requires submitting an updated physical as well as Concussion/Heat Forms, Parent Permission form and acknowledgment of Codes of Conduct Forms.

**Tryouts:** We will conduct tryouts at four different courses. South Hampton, Cimarrone, St Johns Golf and Country Club and Julington Creek. (Rain permitting) The first cut will be made after three, nine hole rounds have been played. A second cut will be made after five, nine hole rounds have been played. The following are scheduled tryout dates for this Fall:

DATE	JULY 30TH	JULY 31ST	August 1st	AUGUST 2ND
LOCATION	Julington Creek Champion's Club 9 Holes	South Hampton Golf & CC 18 Holes	St. Johns Golf & Country Club 18 Holes	Cimarrone Golf & Country Club 18 Holes
MEETING TIME	2:30pm	12:45pm	1:30pm	1:30pm

14 players will make the team. These players will be determined by their overall scoring average during tryouts. The first ten spots will be for all grade levels. Consideration for last four spots goes to 9<sup>th</sup> and 10<sup>th</sup> graders. We do not have a J.V. team.

Once the team has been determined, players that participated in ALL tryout rounds will drop their highest nine hole score and averages will then be calculated. If a player misses ANY nine hole tryout they will not have their high nine hole score dropped.

#### **During the Season:**

Six players with the lowest average will play in the match against the opposing team. If there is a tie for the sixth position the player with the lowest prior nine hole score will participate. All players will participate in matches that are played at South Hampton, Cimarrone, St Johns Golf and Country Club and Julington Creek. (This allows everyone to play the same course, in the same conditions, and compete for the top six spots.)

Only the top 6 players will compete in matches that are at other sites and these scores will be calculated toward a separate statistical average.

All averages are based on nine hole scores. The averages that will determine who plays in upcoming events (Conference, County, Wildcat Tourney, District, Region and State) will only be taken from matches that are played at South Hampton, Cimarrone, St Johns Golf and Country Club and Julington Creek. (These are the four courses where ALL players on the team will have an opportunity to compete.) Players that have competed at each opportunity to compete on these courses will drop another high score to determine District, Regional and State competition participants.

Five players with the lowest average play in District, Region and State. The sixth player with the lowest average will be the alternate and will travel with the team during these matches. If there is a tie for the fifth position there will be a nine hole playoff.

Looking forward to tryouts and a competitive 2018 Season.

Coach Snyder
