

The University Application

Congratulations! You have reached your senior year and are taking steps toward being a university student. If you have not already done so, please make sure to review the PRIORITY DEADLINES (see the State University Matrix for Florida school deadlines) for the schools you are interested in attending. ***If you do not apply by the priority deadline, you drastically reduce the likelihood of being accepted to the school.*** To meet the deadlines, your application must be considered **complete**.

A “COMPLETE APPLICATION” generally includes the following:

- Application (usually online)
- Application Fee (usually about \$30, paid online as part of the application)
- Transcript (order via Parchment on the BTHS web site)
- Test Scores (must be OFFICIAL, from the testing company)
- Residency Affidavit

*****Once you have applied, paid the application fee, ordered your transcript via Parchment/or completed the Student Self-reported Academic Record (SSAR), and sent your test scores, you will need to continue logging in to your school accounts to make sure the schools have received ALL of your paperwork. An incomplete application is generally the same thing as having NO APPLICATION at all, so it is critically important that you are not missing anything. If you are missing just one piece of the application, admission teams will generally not review your application. Please keep checking to make sure they’ve received everything!*****

Part 1: Application Most applications are online. Go directly to the school’s website and click Undergraduate Admissions. Applications take TIME. You might need to write an essay, create a resume, and gather information about your accomplishments. Reflect on all that you’ve done! Take a few weeks to complete your applications. Plan ahead so your applications are not rushed.

Part 2: Application Fee This is generally paid online with a credit card.

Part 3: Transcript The transcript is VERY important. You will need to order one transcript per college application via Parchment unless submitting to multiple schools through one application process such as Common App or SendEDU. To order your transcript, go to the BTHS web site and click on “Order Records” on the homepage. Electronic transcripts are sent to Florida public colleges and universities, private schools, and out-of-state schools. There is no charge for your transcript orders. If you are completing an application for a school that uses the SSAR self-reporting system, you will need to order an unofficial transcript through Parchment (download the PDF when it is ready from Parchment) to reference as you input courses, grades, and credits.

Part 4: Test Scores When you registered for ACT and/or SAT testing, you had the option to send your scores to four colleges per testing agency. If you did not select the schools to which you are now applying or if you need to send your scores to additional schools, you must log in to your online ACT or College Board account and have the scores sent directly from the testing agency to the school to which you are applying. The testing agency will charge you a fee for each score report sent to an institution, and there is a processing time you should consider. Please see the web sites for processing times and fees.

ACT/SAT Scores & College Readiness

What is a good score? How do you know if you “passed” the ACT or SAT? Your scores should at least meet the “College Ready” scores so you will not be asked to complete remedial courses in college. **Remedial college courses are not covered by financial aid or scholarship dollars.** Remedial classes are courses that do not earn college credit. It is best to meet the minimum “College Ready” scores before you graduate from high school so you will know you are well prepared to begin your college courses for college credit.

	Bright Futures Florida Academic Scholar	Bright Futures Florida Medallion Scholar	College Ready Scores
ACT	29 Composite score	26 Composite score	17 English, 19 Reading, 19 Math
SAT	1290 Critical Reading and Math	1170 Critical Reading and Math	25 Writing, 24 Reading, 24 Math

First-Time-in-College Students* attending a public university in Florida are required to meet minimum test score and grade point average requirements (Board of Governors Regulation 6.002) but individual universities may establish higher standards than those presented in regulation. One of the ways a student can be considered as meeting minimum SUS eligibility requirements is as follows:

An FTIC student may be admitted to a public university in Florida if meeting a 2.50 or higher grade point average (GPA) on a 4.00 scale as calculated by the university, presenting an official SAT and/or ACT score, and meeting the requirements for college level placement per Board of Governors Regulation 6.008 and high school credits per Table One below. **TABLE One**

College Level Placement Scores

TEST TYPE	Reading	Mathematics	Writing and Lang
SAT	24	24	25
ACT	19	19	18

High School Credit Requirements (Table One)

English	Mathematics	Natural Science	Social Science	Foreign Language	Academic Courses
4 Credits	4 Credits, Algebra 1 and above	3 Credits with Labs	3 Credits	2 Credits in Sequential Levels of one Language	2 Credits in Level II or higher English, Math, Science, Social Science or Foreign Language

***Board of Governors defines First-Time-In-College Freshmen** as students who have earned a standard high school diploma from a Florida public or regionally accredited high school, or its equivalent, and who have earned fewer than twelve (12) semester hours of transferable college credit since receiving a standard high school diploma or its equivalent.

The State College Application

A great, affordable, very accessible option! The state of Florida has 28 state colleges that serve all 64 counties in Florida. Many of the state colleges have multiple campuses to provide students with a campus near the location they live and work. For instance, St. Johns River State College (SJRState) has campuses in St. Augustine, Orange Park, and Palatka as it serves the counties of St. Johns, Clay, and Putnam. *Each state college in Florida offers one or more of the following options for students to complete their educations:*

- 1) **Associate of Art (AA) transfer degrees.** The AA transfer degree will provide you guaranteed admission to one of Florida's universities to complete your Bachelor degree. The degree might not transfer out-of-state, so be aware of this as you make plans beyond your AA degree.
- 2) **Bachelor degrees.** Many of Florida's state colleges now offer Bachelor degrees. Typically, the Bachelor degree awarded within the state college system provides management opportunities for skilled employees within high demand workforce fields and industries of Florida.
- 3) **Online degree programs.** If you prefer completing your degree entirely online, this is also an option for many programs within the state college system. You can be a distance learner for the cost of a public college education.
- 4) **Associate of Science (AS) degrees.** Keep in mind that the state college system also provides students with the opportunity to complete AS degrees. AS degrees are designed for students to complete and enter the workforce expeditiously. A limited selection of AS degrees can be used as transfer degrees to the university system or to a bachelor program within the state college system. See your college advisor for details.
- 5) **Certificates.** This educational avenue provides students with options to complete industry certifications leading to specific areas of employment. Certificates may also be acquired to show specialized knowledge that complements existing degrees earned.

Students interested in attending a state college in Florida MUST apply to attend the chosen school. However, admissions is not competitive in nature. If you have earned a high school diploma, you will be admitted to the state college system. There are no priority deadlines for admissions, however, you will need to apply in time to register for courses, so check the application deadlines. Also, you will want to apply and get your name in the system for potential scholarships. Many state college scholarships must be applied for separately from the actual application process, so make sure you review the web site of the state college you would like to attend. Keep in mind that some of our state colleges now offer housing for students.

A "COMPLETE APPLICATION" to a state college generally includes the following:

- Application (usually online)
- Application Fee (usually about \$25, paid online as part of the application)
- Transcript (order via Parchment at the end of school year for State Colleges)
- Test Scores (must be OFFICIAL, from the testing company- used for advising you)
- Residency Affidavit

Training Beyond High School for Bartram Trail Seniors

Military Bound Seniors

Make contact with your local recruiting office to learn more about the options available to you for a military career. Remember that even if you have not been actively involved in Bartram Trail's ROTC program, Chief Phillips and Colonel LeFevre are resident experts at Bartram! Service representatives from all branches of our United States military are assigned to assist Bartram Trail students with information about military careers and education and are available during scheduled lunch sessions. ASVAB testing will be available on campus in November 2014.

Career and Vocational Bound Seniors

Most careers and vocations require continual learning and education. Please review the career and vocational training options provided by First Coast Technical College (FCTC) in St. Augustine, Florida. This school offers education beyond high school in many fields and you can review that information at www.fctc.edu. Following is a partial list of options available through FCTC: EMT, Paramedic, Firefighter, Cosmetology, Culinary Arts, Air-Conditioning Refrigeration and Heating, Automotive Services Technology, Early Childhood Education, Dental Assisting, Massage Therapy, Medical Assisting, Pharmacy Technician, Welding, Practical Nursing, Landscape Mgt., Pest Control, Sports and Recreational Turf Management, and more.

State College Bound Seniors

St. Johns River State College offers Associate and Bachelor degrees in addition to many industry certifications. Every county in Florida is served by a State or Community College, so seniors who want to pursue more education in a different area of Florida should consider looking at the local State or Community College. SJRState offers education in: Construction Technology, Business, Computer Science, Criminal Justice, Health Care, Early Childhood Education, Organizational Management, and the Arts. It has three campus locations: St. Augustine, Palatka, and Orange Park. There is an online application for SJRState. Please visit the school web site at www.SJRstate.edu for complete information.

FAFSA Deadlines, Bright Futures Eligibility, and Scholarships

FAFSA - The Free Application for Federal Student Aid (the FAFSA) is available on October 1st at <http://www.fafsa.gov>. The earlier this federal form is completed, the more likely a student will receive financial assistance for college. Federal dollars are assigned by the financial aid offices of the colleges—so make sure you get your request in early! Universities in Florida now suggest that students have the FAFSA completed by October 31st so they are sure to meet the Financial Aid Priority Deadlines of all universities in Florida. See your institution web site for actual priority deadlines. Note that many private scholarships also require students complete the FAFSA to be eligible.

Bright Futures - ON OCTOBER 1st SENIORS should apply for Bright Futures and all Florida financial aid. Go to the BTHS website. Click on the Guidance tab, then click on the Scholarships link on the right side of the page under Guidance Pages.

- EVERY Senior should apply for Bright Futures starting October 1st
- The application must be done during Senior year, prior to graduation
- The only information you need is basic demographic information (name, address, etc.)
- **Find out your Bright Futures GPA NOW and see what you need to do to get a scholarship!**
- You only apply one time. It takes about 10 minutes, and then you are done!
- **DON'T WAIT** to apply because your application will be updated in early February and again after graduation to reflect your test scores, community service hours, and grades.
- You can delay the use of your award for up to two years after you graduate high school or leave the military if you applied and qualified before graduation!
- Bright Futures will SUPERScore-- take the HIGHEST scores from the subsections of your ACT or your SAT if you took either test more than one time. Bright Futures will NOT combine scores across SAT and ACT tests. Bright Futures will NOT combine scores from the pre-March 2016 SAT with the SAT ReDesign tests. In other words, if you take the pre-March 2016 SAT and the SAT ReDesign, Bright Futures will NOT combine the scores from these two tests.
- See your counselor early if you need help!
- YOUR BRIGHT FUTURES GPA IS DIFFERENT (AND USUALLY LOWER) THAN THE WEIGHTED GPA ON YOUR REPORT CARD. TO FIND OUT YOUR BRIGHT FUTURES ELIGIBILITY, GO TO www.floridashines.org and click on "Pay for College" then click on "Check your eligibility for a Bright Futures Scholarship" under the Bright Futures Headline. You will be able to access your unofficial Bright Futures GPA, SAT/ACT testing evaluation, and community service hours on file.

Bright Futures Requirements:

*Your **Bright Futures GPA** is not the same as the weighted GPA on your report card, it is usually lower!*

Florida Academic Scholar (FAS) – 3.5 **Bright Futures GPA**, 29 ACT or 1290 SAT (Reading and Math only), 100 Community Service Hours

Florida Medallion Scholar (FMS) – 3.0 **Bright Futures GPA**, 26 ACT or 1170 SAT (Reading and Math only), 75 Community Service Hours

Scholarships

There are MANY scholarships available for only St Johns County students or only BTHS students. Apply. Check the "**Scholarships**" link on the **right-hand side of the BTHS guidance website** for updated scholarship opportunities. Check the college/university financial aid/scholarship website TODAY on how to apply directly for scholarships for the school(s) you hope to attend. Keep in mind that institutional scholarship deadlines are early. APPLY IN THE FALL FOR THESE COLLEGE-SPECIFIC DOLLARS. Most private scholarship applications open after winter break and close in April but some have earlier deadlines. It is important to FOLLOW DEADLINES.

NCAA, AP, and Contact Information

College Essay: The college essay is a great tool for students to use to express themselves in the college application. Make sure to follow instructions, check for errors, show not tell, make it meaningful, and don't be afraid to shine.

Resume: There is an example resume on the back of this form. Make sure you give details to describe your activities and accomplishments and avoid acronyms.

NCAA: If you think you'll be playing a Division I or Division II sport, see your counselor and check the NCAA Eligibility Center to make sure you are taking the appropriate classes to be eligible. Register for eligibility ASAP at www.eligibilitycenter.org and bring the signed transcript release form to the athletics office. Make sure NCAA has received your ACT/SAT scores also.

AP Credits: College credits for qualifying AP scores do not automatically follow you to college. You will need to contact College Board and request that your AP scores be sent to the college you will attend. Take some time over the summer to make sure your school receives your AP scores directly from College Board so your records are up-to-date and you are given the appropriate college credit(s). The courses for which you are assigned college credit by examination may impact your course decisions for that first year of college. You can access your AP score information through AP Central at the College Board website at <http://apcentral.collegeboard.com> AP credit is generally granted as course credit and does not include a grade or get factored into the college GPA. See your college website to learn how AP credit is applied. Scores of 4 or 5 will sometimes earn students credit for multiple courses within a course series.
