- **School pay link: <https://www.schoolpay.com/pay/for/The-Colors-of-Bartram-Dues-20202021/SbxmVmY>**

History:

Each culture we are going to learn and talk about has its own unique history. To how it originated and created new traditions. Cultural history involves the aggregate of past cultural activity, such as ceremony, class in practices, and the interaction with locales.

Art:

Art is a medium used to express and emotion, feeling, or sight. Many artist show their culture through their art. In this club we are going to see many different art pieces to give us a deeper understanding of each culture. Art influences society by changing opinions, instilling values and translating experiences across space and time.

Music:

Music is a big part of a culture. There's nothing quite like a song to capture what was going on culturally at that time, and like a time capsule, it's captured for eternity. The slang and language usage are so indicative of the times, and you can probably recall exactly when a song was made based on what is mentioned.
