NOTE FROM MRS. DIDEO

This class is a great way to achieve certifications which allow you to attain skills needed for any field of study. You do not have to pass the certification test in order to pass the class.

Certification is an added bonus and a wonderful challenge and goal for my students to achieve.

I have worked in the Graphic Design Industry (Printing and Advertising) for over 30 years.

I love the sense of accomplishment my students feel when they pass their Certification Test.
